

Dear Families,

With cold weather approaching, I wanted to make sure we are all prepared if we need to work from home. If the school closes due to extreme cold or a snow day, students will need to log into my Google classroom to complete their work for the day. I will be posting videos and assignments for them to complete. They may need assistance with getting started and motivation to complete all their work but they should be able to do their work independently. I will have voice instructions attached to each assignment to make it easier for students to understand the instructions. Students will need to complete work online to ensure they are marked present for the school day. I will post all their work by 9 AM, and will be available for students and families via email ([jwilcox@pv62.com](mailto:jwilcox@pv62.com)), GoogleMeets, and in our Google classrooms.

Overall, I will be posting one assignment each for Math, Reading, Language Arts, Science and Social Studies on an e-learning day. Please let me know if you have any questions or concerns.

Sincerely,

Jeanette Wilcox
